Buffalo, Sept. 11 .- The following bulletin was issued by the physicans at 3:30 p. m: "The president continues to gain stomach and is being gradually increased. Pulse, 120; temperature, 100,2."

Buffalo, Sept. 11.-The feeling that the president will recover grows stronger. When the usual morning conference of physicians broke up at 9:15 today Dr. Mynter said to the reporters: "It is all good news. The action we took last night has proved beneficial and I feel more confidence in the president's recovery than at any time since he was shot. Everything is favorable and we have tripled the amount of nourishment, giving him now three teaspoonful of beef tea every hour instead of one. But the president's recovery will be slow. All talk of him sitting up in a few days and leaving Buffalo in a week is nonsense. I shall be satisfied if he can be moved in six weeks.

Dr. Mynter said Dr. Mann had taken out the stitches in the wound last night. He described the necessity for this action was not unusual in such cases. He said -J. B. The Work of the Deaconess

Miss Luella McMillan, of Bethany Hospital, Kansas City, lectured in the M. E. church, Thursday night, on the work of against anarchism. The Catholic church | the deaconesses and of Bethany Hospital in particular. There was not a large attendance at the church, as is usual under such circumstances. The work of charltable people does not appeal to the attention of the public, though the public may answer to the demands of charity. When the church arrives at the true work of Christ, as shown in the deaconess work and the work of all others doing the service of Christ, it will have the true Christian spirit. Miss McMillan spoke of the different

duties of the deaconesses. They were an his Master with a kiss. With a pretendof the church; they look after the moral aforeseid do hereby certify that the foregoing welfare of the people, and they attend to is a correct list of the tax levies made and an the indigent and sick. The kindergarten work was no small part of their duties. They took care of poor children while the mothers were engaged at small pay in packing houses and other em-ployment. They helped families in household work and instructed them in the management of household affairs. The poor children were found homes and were cared for. The deaconess made visits to sick and poor people and provided them with comfort and medicines. They were like the good Samaritan mentioned by Luke. They were like Christ who did good to all people.

The hospital work by the deaconesses appeals also to the charitable sense of the people. It cannot be said that a deaconess has other than the genuine Christly spirit, for the pay is no consideration, being so small, but they have the love of mankind to do the work they are called upon to do. In the hospital about onefor without pay. One-half pay a reasonable sum for the treatment they receive.
